

PAST COMMISSIONS - EFFECTIVE DATES

1992

From the 1992 full text: It appears that the 1992 Commission revamped the entire Article 16 (Transition Schedule). Old sections from Article 16 were deleted and eight new sections were created. These changes were included in each charter amendment. 1992 amendments also included additional transition sections relevant to specific amendments.

See Charter Sections 16-101 to 16-112.

1998

From the brochure (with full text): The 1998 Commission added specific transition sections for individual proposals, but did not include a general effective date section, nor revamp Article 16 like the 1992 Commission did.
